

Project-Based Learning: Suggestions for Providers

1. Work closely with Talent Link and school staff to align your project to student learning.
2. One great project shared with multiple schools throughout the year, makes a major impact!
3. Focus on hands-on, real world applications. Wear your uniform, and bring pictures and items related to your project.
4. Talk about careers in your organization related to the project.
 - a. Who is involved in this type of work?
 - b. What type of training/education do they have?
 - c. What is a typical pathway for the careers you mention?
 - d. What can students in high school do to prepare for these careers?
